TECHNICAL SKILLS

Languages: JavaScript, Typescript, HTML, CSS

Frameworks & Libraries: Angular, Node.js, React.js, Next.js, Prime Ng, TailwindCSS, Angular Material, Redux, RxJs, NgRx

Developer Tools & Platforms: NPM, Yarn, Git, Jira, GCP, Visual Studio Code

Database Management: SQL, NoSQL(Fire Store), Big Query

EXPERIENCE

Software Development Engineer

May 2024 – Present

Indiejewel Fashions Pvt Ltd (GIVA)

Bengaluru

- Contributed to GIVA Unified Transactional System (GUTS), optimizing workflows for gold/silver transactions, increasing task completion rates by 25%.
- Built GIVA MTO and GIVA Go e-commerce platforms from scratch, integrating custom Razor pay gateways (cards, net banking, wallets, UPI), boosting conversion rates by 15%.
- Developed Big Query-based APIs with Firebase Authentication for finance queries, improving data retrieval by 30%, and enhanced return process with partner allocation (Shadowfax, Shiprocket, etc.), reducing processing time by 20%.

Associate Software Engineer

February 2022 – February 2024

Isteer Technologies Pvt Ltd

Bengaluru

- Collaborated to the development and maintenance of enterprise-grade applications, building efficient modules and enhancing functionality using modern frameworks like React and Angular
- Cooperated with cross-functional teams in an Agile environment to deliver high-quality, scalable solutions, ensuring timely project deliveries and improved user experiences.

PROJECTS

Appsteer.ai

- Designed and implemented Appsteer.ai user portal layout with dynamic menu generation using Angular and RxJS, enhancing navigation and increasing customer engagement by 40%. and contributed to the development, testing, and maintenance phases

Lead Management System (LMS) Capillary

- Designed and implemented Area Manager roles, improving operational efficiency by 50%.
- Developed a robust Dashboard using CubeJS and provided maintenance and support for the LMS application.

Corporate Administration Tool (CAT) Motorola Solutions

- Delivered continuous support and maintenance for the Corporate Admin Tool (CAT), which managed corporate subscribers' contacts and groups for Kodiak's Push-to-Talk (PTT) services, ensuring smooth operations for telecom clients.
- Collaborated with cross-functional teams to enhance CAT's features, address issues, and improve user experience for global telecom companies like AT&T, Verizon, and Vodafone.

GUTS (GIVA Unified Transactional System)

- Contributed to GIVA Unified Transactional System (GUTS), implementing HR modules, vendor flows, and finance dashboards (e.g., COD, Sales vs. Collections), improving reporting accuracy by 35%.
- Optimized transaction management workflows in GUTS, Minimised processing time by 20% through streamlined system design.

GIVA API Project

- Developed authentication middleware using Firestore tokens and integrated third-party APIs, including finance-related BigQuery APIs, for the GIVA API Project, improving data retrieval efficiency by 30%.
- Revamped GIVA's return initiation flow by implementing percentage-based bucket allocation for delivery partners (e.g., Shadowfax), reducing processing time by 20%, and added Slack integration for real-time notifications on auto-run script failures.

GIVA MTO (Made-to-Order)

- Engineered the GIVA MTO extension for giva.co from scratch, crafting cart, checkout, and order placement with a tailored Razorpay gateway (cards, net banking, wallets, UPI).

GIVA Go (Express Delivery)

- Constructed the GIVA Go extension for giva.co from scratch, implementing cart, checkout, order placement, and COD with a custom Razorpay gateway, elevating customer satisfaction by 20%.

EDUCATION

BVCITS Affiliated with JNTUK (Jawaharlal Nehru Technological University, Kakinada)

Bachelor of Technology in Electronics and Communications

May 2015 – April 2018
