EDUCATION

Affiliated with JNTUK (Jawaharlal Nehru Technological University, Kakinada)

Bachelor of Technology in Electronics and Communications

May 2015 – April 2018

EXPERIENCE

Software Development Engineer

May 2024 – Present

Indiejewel Fashions Pvt Ltd (GIVA)

Bengaluru

- Integral contributor to the GUTS (GIVA Unified Transactional System) project, a comprehensive software platform managing transactions for commodities like gold and silver.
- Transformed existing transactional systems through targeted modifications, achieving an increase of over 25% in task completion rates while facilitating effective communication between departments involved during critical transactions.
- Enhanced operational efficiency and accuracy, ensuring smooth end-to-end transaction management and maintaining high standards of excellence.

Software Development Engineer I

February 2024 – April 2024

Techaffinity Consulting Pvt Ltd

Bengaluru

- Gained hands-on experience in Node.js and Express.js, enhancing backend development skills.
- Strengthened understanding of server-side development and API design principles through self-paced learning and team guidance.

Associate Software Engineer

February 2022 – February 2024

Isteer Technologies Pvt Ltd

Bengaluru

- Contributed to the development and maintenance of enterprise-grade applications, building efficient modules and enhancing functionality using modern frameworks like Angular, NgRx, and PrimeNG.
- Collaborated with cross-functional teams in an Agile environment to deliver high-quality, scalable solutions, ensuring timely project deliveries and improved user experiences.

PROJECTS

Appsteer.ai

- Built a dynamic menu generation feature for the user portal, enhancing navigation and increasing customer engagement by 40%.
- Implemented features like a No Internet connection mode and contributed to the development, testing, and maintenance phases

Lead Management System (LMS) Capillary

- Designed and implemented Area Manager roles, improving operational efficiency by 50%.
- Developed a robust Dashboard using CubeJS and provided maintenance and support for the LMS application.

Corporate Administration Tool (CAT) Motorola Solutions

- Delivered continuous support and maintenance for the Corporate Admin Tool (CAT), which managed corporate subscribers' contacts and groups for Kodiak's Push-to-Talk (PTT) services, ensuring smooth operations for telecom clients.
- Collaborated with cross-functional teams to enhance CAT's features, address issues, and improve user experience for global telecom companies like AT&T, Verizon, and Vodafone.

GUTS (GIVA Unified Transactional System)

- Implemented HR modules and designed comprehensive dashboards for vendors and finance-related insights like Sales vs. Collections.
- Enhanced reporting accuracy and streamlined workflows for transaction management.

GIVA API Project

- Built and optimized APIs for finance-related queries using BigQuery.
- Integrated Firebase Authentication for secure access and improved user management.
